The Ordinances No. 2 of 1859, and No. 3 of 1862, authorize the exemption of certain articles of Machinery, and Paper, from duty. Warehouse Rent charged upon goods placed in the Queen's Warehouses is levied by Governor's Minute of the 22nd June, 1853, under authority of the 72nd clause of the Ordinance No. 18 of 1852.

* Repealed by Ordinance No. 17 of 1869.

PORT AND HARBOUR DUES.

Port Dues are levied under the Ordinance No. 18 of 1852. The rates are two pence per ton inwards, and two pence per ton outwards on loaded Vessels,—but no Vessel is liable to more than £5 on any one voyage, whatever may be the tonnage of the Vessel. Under this head are also brought to account receipts for the hire of Government Boats and Moorings, and half pilotage fees recovered under the Ordinance No. 6 of 1865.

LAND SALES.

Under this head are included the Receipts derived from the Sale of Crown Lands and Cinnamon Gardens, under the Rules laid down in the Minutes of the Governor of the 14th January, 1857, and 1st August, 1861, and the half improved value of land under the provisions of the Ordinance No. 12 of 1840, also the sale of Paddy Lands in the Irrigation Districts, under the Minutes of 27th February, 1857, and 21st May, 1868, and Grants of land under the Minute of 8th August 1844.

LAND REVENUE.

Tax on Paddy.

The Receipts classed under this head are derived from the Tax of one-half, one-fourth, one-fifth, one-tenth, one-eleventh, one-fourteenth, or one-twentieth of the produce.

The Tax is levied on the authority of immemorial usage, and is particularly recognized by the Proclamations of the 3rd September 1801, the 22nd April 1803, and the 21st November 1818, and the Ordinance No. 14 of 1840, and No. 29 of 1865.

In the Central Province this Tax was, till 1826, levied by an Annual Assessment of the Crop of each harvest, and was chiefly collected in kind. In the Districts adjacent to the Town of Kandy, the Assessment was then commuted with the consent of the proprietors, for the annual payment of a given quantity of Grain, which arrangement continued in force till the end of 1830, when that system was further extended by giving the proprietors the option of paying the Assessment, either at a fixed rate of money, or in kind, and even of redeeming the Tax in perpetuity by payment of the Assessment for 20 years. In 1832, the first settlement having expired, a renewal of the Commutation Assessment was entered into throughout the former commuted Districts.

The Commutation System is also in full operation in some Districts of the Western Province. In the North-Western and Southern Provinces the Renting system alone is adopted. In the Northern Province the average of the Renting and Commuting systems is nearly equal. In the Eastern Province both systems prevail.

Tax on Fine Grain.

Recognized by the Proclamations of the 3rd September 1801, and the 22nd April 1803, (which impose generally a Tax of one-tenth on the produce of all high lands, viz. of lands not adapted to the cultivation of Paddy,) and recognised by the Ordinances No. 14 of 1840 and 29 of 1865. In the Western Province this tax is levied in the old Kandyan Divisions only according to the tenure on which lands are held, or according to the ancient usages and customs of the country. The proceeds sale of illicit cultivation of fine grain on Crown land are also brought to account under this head.

In the Northern Province the rate of Tax is one-fifth for jungle cultivation, and one-tenth for all the others. In the Kandyan Territories, Fine grain is exempted from Taxation under the Proclamation of 21st November 1818.

Rent of Gardens.

This Revenue is derived from the produce of Government Gardens either rented or collected in aumany, (that is in kind.) In the Central Province the Rents derived from small Crown Lands, and on reserved Crown Lands on sides of Public Roads which are permitted to be cultivated, are also brought to account under this head.

Tithes Redeemed.

A measure adopted in 1813, by Government, under the conviction that proprietors of Paddy lands would cultivate them more carefully and with greater advantage to the public, if subjected to one-tenth only, instead of the one-half or one-fourth. The redemption is effected by the owner paying the estimated value of the proportion of Tax for eight or ten years at one payment. The cases of redemption of this nature are however few in number, and the permission to redeem the Tax altogether, which was at one time granted on the application of the owner, has been suspended.

Rent of Lands.

The Receipts under this head are collected from the Rental of Government Land, leased at will, and a fixed rate per acre on Government Lands encroached upon by private parties.

Royalty on Plumbago and Cabook Stones.

A Royalty at the rate of 20 shillings is charged for every ton of Plumbago dug from Crown lands in certain Koralés in the Western Province, and a sum of 1s. 6d. for the execution of each Lease to quarry Plumbago; and a payment of 7s. 6d. is levied on every 1,000 Cabook Stones cut from the Government pits in the Districts of Colombo and Negombo.—In the Southern Province the Royalty on Plumbago is 1-10th on the ascertained value of the article.

This branch of Revenue which is peculiar to the Northern Province, is protected by the Ordinance No. 4 of 1842.

By His Excellency the Governor.

HIS EXCELLENCY is also pleased, on the recommendation of the Superintendent of Wrecks, to approve of the following Regulations for the guidance of Receivers:—

1.—*Receivers will bear in mind, that the principal object of the Ordinance No. 5 of 1861, and of their appointment thereunder, is*

- 1st, The rendering of assistance.
- 2nd, The protection and preservation of wrecked property, and the restoration thereof to the owners.
- 3rd, The protection of the Customs Revenue.
- 4th, The settlement of Salvage claims.

The provisions of clauses 3, 7, 8, 14, 16, 17, 21 to 27, and 31 to 32, give them full powers to carry out these objects.

2.—*Inquiries into Wrecks and Casualties at Sea, Clause 3; Ships in distress, Clause 14.*

In making these inquiries the officer will remember that he is exercising a highly important function, and that his report may be the foundation of proceedings deeply affecting the interests of individuals; he must therefore most carefully endeavour to arrive at the truth, and should especially direct his attention, whether the casualty happened from avoidable or unavoidable causes,—particularly as to the

- (a) Unseaworthiness or insufficient equipment of the Ship.
- (b) Insufficient or improper manning.
- (c) Improper loading, overloading, bad stowage.
- (d) Misconduct, incompetency, or neglect of Master, officer, or crew.
- (e) Ignorance of lights, or navigation of the Coast.
- (f) Neglect of heaving the lead.

3.—*Custody of wrecked property, Clauses 9, 16, 17, and 18.*

Clause 9.—This clause refers to property recovered from a ship wrecked or in distress at the time of wreck or casualty, and the object of its provision is to secure the property in the confusion which attends a shipwreck; to protect the Customs' Revenue; to provide for payment of fees, expenses, and salvage claims. But if the Master, or if the owner, or any duly appointed Agent of Owner or Master is in possession, and is able to take and keep custody of the property, and if all claims are paid or provided for by proper security, the Receiver need not take possession or detain the property, but he will offer his services, and render such assistance as may be required.

Clauses 16 and 17 refer to Wreck saved or taken possession of at any other time.

Clause 18.—This notice should be given when the Wreck in custody exceeds the value of £5, and the particulars of all articles taken possession of by the Receiver, will be entered in the Report Book No. 1, per form annexed.

4.—*Wreck arrested by order of Court of Law.*

When a derelict ship in the custody of a Receiver, or other wrecked property detained by the Receiver for the payment of salvage, is arrested by virtue of a Warrant or other instrument of Court, the Receiver should not give up the claims to Fees and to any expenses he may have incurred, but should send a copy of his account to the person taking such charge, giving notice of his lien, and that the property must not be restored until the amount of his claims be paid. A copy of the account and notice should also be forwarded to the Registrar or Secretary of the Court issuing the Warrant; and in the event of property being restored without payment of Receiver's claims, he should report the circumstances to the Superintendent of Wrecks, and should resume possession of the property until his claims are satisfied.

5.—*Sale of Wreck Property, Clauses 19, 27, and 28.*

Clause 19 provides for the disposal of Wreck of small value, either derelict, flotsam or jetsam, so constantly found on the Coasts of this Island; and should the Receiver find it necessary to sell property under the provisions of clause 27, he will, if the property be claimed, endeavour, in doing so, if possible, to act in concert with the owners and insurers.

All sales of importance and value should be advertized in the *Gazette* and local papers; and notice of intended sale affixed at the Custom House of the Port. The account of Wreck sold is to be made in form No. 3 (annexed.)

6.—*Salvage, Clauses 21 to 26.*

The decisions of questions as to Salvage, if the parties cannot agree, must be determined by the Court having jurisdiction in that behalf; but the Receiver has important duties in endeavouring to settle salvage claims amicably, in providing for what may be due by detaining the property saved; in releasing the property on proper security being given; in selling the property when necessary to satisfy the claim of Salvors; and in apportioning money paid in satisfaction of such claims; and the Receiver will recollect that, whilst providing for the claims of bona fide Salvors, he must, as far as he can, protect property against vexatious and improper claims.

The essentials of Salvage Service are,—

- (a) The degree of danger from which the lives or property are rescued.
- (b) The value of the property saved.
- (c) The risk incurred by the Salvors.
- (d) The value of any property by the use of which the services are rendered, and the danger it was exposed to.
- (e) The skill shewn in rendering the service.
- (f) The time and labour occupied.

The Salvage should be in proportion to the use of these essentials; but where scarcely any, or only the last exist, and the same is little more than mere work or labour, it should be rewarded accordingly.

The amount of reward should not however increase in direct proportion to the value of the property; and as a general rule it may be borne in mind, that the Courts of Admiralty, very seldom, if ever, give more than one half the value of the property saved.

7.—*With a view to encourage Salvors and finders of unclaimed Wreck and drift goods sold and taken charge of by Receivers under provisions of Clauses 19 and 28, the following rewards may be given, viz. :—*

Upon the net value of property of £2 10s. or under (Two-thirds.)	-	$\frac{2}{3}$
When it exceeds £2 10s. and under £5 (One half.)	-	$\frac{1}{2}$
When of £5 and above (One third.)	-	$\frac{1}{3}$

8.—*Delivery of Property to Owners.*

On payment of all sums due for salvage, duties, fees, and expenses, the Receiver will deliver up all property which comes into his possession or custody, and the proceeds of such parts of it as may have been sold, to any person who proves himself, to the satisfaction of the Receiver, to be the owner of such property, or agent duly appointed by him, taking receipts for the same. The Owner of the Ship being responsible for the cargo, and the Master of the Ship having, as the servant of the owner, the legal custody thereof, the Receiver will treat the Master, when present, as the agent of the owner, not only of the Ship, but also of the cargo; unless and until it is clearly proved, that the owners of either have put an end to such agency.

9.—*Accounts and Returns.*

The Receiver will keep a Report Book according to form No. 1, in which he will enter the particulars of every description of article taken into his custody. The reference numbers are to commence with No. 1 on 1st January of each year.

The reporting of goods taken possession of for the Receiver should be made according to form No. 2, and the sale account per form No. 3.

The Quarterly Returns, as per form No. 4, are to be forwarded through the Superintendent of Wrecks; and the net proceeds of all Wreck the property of Government as unclaimed, is to be paid into the General Treasury, quarterly; the Treasurer being required to receive such monies on account of Wrecks.

REMARKS 1869.

- No. 1. **ARREARS OF REVENUE.**—This increase is owing to a larger amount of Revenue outstanding having been recovered in 1869 than in the previous year.
- „ 2. **CUSTOMS.**—The increase of £13,743 8s. 9d. on Imports, &c., has been caused by an increased importation under nearly all heads, but particularly those of Cotton Manufactures, Spirits and Wine.
The decrease on Exports was chiefly in Coffee and Coconut Oil. There can be little doubt that the prospective abolition of the Export duties led to a postponement of the Shipment of the above articles of Ceylon produce towards the close of the year.
- „ 3. **PORT AND HARBOUR DUES.**—This decrease is attributable to less tonnage being employed in 1869, than in the previous year.
- „ 4. **LAND SALES.**—The increase under the head “Waste Lands” is owing to a large sale of lands in 1869, principally in the Western Province, while the decrease under the head “Cinnamon Gardens” arose from a smaller number of Building Lots having been disposed of in that year.
- „ 5. **LAND REVENUE.**—The increase on account of “Paddy” and “Fine Grain” is owing to a more productive harvest in 1869, and also to the introduction of the commutation system in the Kégalla and Batticaloa Districts.
The increase on account of “Royalty on Plumbago” is caused by a larger quantity having been dug on Crown Lands.
- „ 6. **RENTS, EXCLUSIVE OF LANDS.**—The decrease under “Tolls” is chiefly attributable to the reduced traffic on the Kandy road. The increase under the head “Government Buildings” is mainly owing to the Warehouse at St. John’s River having been rented to the Municipality for £280 10s. 0d.
- „ 7. **LICENSES.**—The decrease under “Arrack &c.” is owing to the Farms in the North-Western Province having been collected in aumany for the year 1869-70, consequently a corresponding increase is shewn under the head “Sale of Government Property.”
The decrease on account of “Stills” is in consequence of very few Stills having been licensed since distillation has been restricted to Stills of Galls. 150.
The decrease on account of Retail of Salt is owing to no adequate offer having been made for the Salt Rent of the Northern Province for 1869, the sale of which was therefore conducted in aumany.
- „ 8. **STAMPS.**—There was a decrease of £3,016 under this head in 1868, owing to the depression of the money market and dullness of trade. In 1869 there is an increase of £2,506, which shews that trade has considerably improved. The increase on account of “Postage Stamps” is consequent on the increase of correspondence in the Island, and to an extension in the use of Postage Stamps.
- „ 9. **TAXES.**—This decrease is so small that it hardly calls for explanation.
- „ 10. **POSTAGE.**—This decrease is evidently owing to Postage Stamps being now more generally used in lieu of direct money payments.
- „ 11. **FINES.**—This decrease is owing to the Government Agent of the Northern Province having brought to credit in 1869 the sum of £1,400, being sale of confiscated Timber, under the head “Sale of Government Property” instead of Fines and Forfeitures.
- „ 12. **SALE OF GOVERNMENT PROPERTY.**—Increase in “Salt and Arrack,” the former is owing to the Rent of the Northern Province having been held in aumany, and the latter owing to the Arrack Farms of the North-Western Province having been retailed by the Government.
The increase on account of Timber is attributable to a larger quantity having been felled, principally in the Eastern Province; and also owing to the sale of a large quantity of confiscated Timber in the Northern Province having been brought to account in 1869, under this head of Service instead of “Fines and Forfeitures.”
The decrease of £12,667 4s. 2d. on Colonial Stores, is chiefly owing to a large sum (nearly £14,000) having having been recovered in 1868 on account of Iron Bridges, whereas the amount recovered in 1869 did not exceed £2,000.
- „ 13. **REIMBURSEMENTS &c.**—The increase on account of Survey Fees is owing to a larger proportion of Plans having been prepared in 1869 than in the previous year.
The revenue under the other heads is of such a fluctuating nature that no specific cause can be assigned for the increase or decrease.
- „ 14. **MISCELLANEOUS.**—The decrease on account of overpayments recovered is chiefly owing to a sum of £343 6s. 8d. recovered in 1868 from Railway Capital Fund, in repayment of expenses incurred on that account, from General Revenue, and also a sum of £677 received in 1868, being balance of the purchase of Steamer “Pearl.” The decrease on account of the “Deficiency of Troops” is self-evident.
- „ 15. **INTEREST.**—The increase of £708 11s. 3½d. is owing to the recoveries of the arrears of former years in 1869.
The decrease on account of Indian Investments is in consequence of the withdrawal of moneys invested on Indian Government Securities.
- „ 16. **ELECTRIC TELEGRAPH.**—This decrease is owing to the transfer of the Electric Telegraph Department to the Indian Government.
- „ 17. **PEARL FISHERY.**—This decrease hardly calls for any observation.
- „ 18. **SPECIAL RECEIPTS.**—The increase on Fees for Title Deeds is in consequence of the increased sale of Lands.

PENSIONS.—This increase is attributable to the retirement on pension of a greater number of Public Servants in 1869 than in the previous year.												
REVENUE SERVICE.—This increase is owing to the Arrack Rent of the North-Western Province having been retailed by Government, which rendered necessary the purchase of a large quantity of arrack, and the payment of Commission to Retailers, &c.												
ADMINISTRATION OF JUSTICE.—The decrease is owing to a smaller expenditure having been incurred in 1869, on account of witnesses attending the Supreme Court than in the previous year.												
CHARITABLE ALLOWANCE.—The decrease is chiefly owing to an expenditure in 1868 of £325 on account of the relief of Distress and Sickness in the Western Province, which did not occur in 1869.												
EDUCATION.—This increase is owing to the re-organisation of the Educational Department.												
HOSPITALS.—This decrease is owing to a reduction in the number of Patients admitted to Hospitals.												
POLICE AND GAOLS.—The decrease is owing to the statement of expenses on account of the Convicts at Malacca not having been received from the Government of the Straits Settlements.												
RENT.—This decrease is owing to the Rent of School Houses having been classed under the head of "Education exclusive of Establishment," instead of Rent, as in former years.												
TRANSPORT.—This Decrease is principally owing to the transfer of the Telegraph Department to the Indian Government, which reduced the expenditure under this head to the extent of £528.												
CONVEYANCE OF MAILS.—The decrease is owing to the payment hitherto made under this head having been transferred in 1869 to that of "Provisional Salaries."												
WORKS AND BUILDINGS, AND ROADS, STREETS AND BRIDGES.—The decrease under these heads are in consequence of smaller votes having been taken in the Supply Bill for 1869 than in the previous year. In 1868 several works of magnitude were executed, such as the road from Mawenelle to Rambookan Railway Station, which cost £18,500; several Iron Lattice Bridges, amounting to £14,000 were also paid for in 1868. These and other large sums expended in that year will account for the decrease in 1869.												
MISCELLANEOUS.—This increase is owing to a sum of £13,175 2s. 4d. having been brought to account in 1869, on account of men raised in the Punjab for the Ceylon Pioneer Corps in the year 1863.												
INTEREST.—The increase under this head hardly calls for any remark.												
COLONIAL STORE.—This decrease is attributable to a smaller expenditure incurred by the Crown Agents in 1869 than in the previous year.												
COLONIAL PAY AND ALLOWANCES.—This decrease is owing to the salary of the Aid-de-Camp to the Governor not having been drawn during the absence from the Colony of the Governor, and also to the remission of duty on Beer, &c., consumed by soldiers having been discontinued.												
LANDS TAKEN FOR GOVERNMENT PURPOSES AND IMMIGRATION.—The decrease in the former, and the increase in the latter, hardly call for any observation.												
ELECTRIC TELEGRAPH.—This decrease is owing to the Telegraph Department having been transferred to the Indian Government.												
RAILWAY LIABILITIES.—Although there was a decrease of £4,523 on Export Duty in 1869, there is yet an increase of £1,521 under this head, in consequence of a larger amount of that duty having been funded in 1869 than in 1868. This arises from the amount funded in 1868 having comprised the collections of the first eleven months of that year only, whereas the balance funded in 1869 included, in addition to the twelve months' collections of that year, those of the concluding month of the one before.												
REDEMPTION OF DUTCH CREDIT BRIEVEN, AND ENQUIRY INTO THE CULTIVATION OF PEARL OYSTERS.—The decrease under these heads hardly calls for any remark.

REMARKS.

- u* 13 3 { The duties of the Queen's Advocate are, in many respects, analogous to those of the Attorney General in England, though in other there seems to be a close resemblance to the office of Lord Advocate in Scotland. The Queen's Advocate acts on all occasions as the Legal adviser of the Government. The Legislative Enactments of the Government are prepared by him. All Contracts and Deeds entered into by or made in favour of the Government are submitted to him for his opinion; and executed under his directions. He also acts, after the manner of the Lord Advocate in Scotland, as Grand Juror and Public Prosecutor. He instructs Magistrates in Criminal proceedings and all informations in the Supreme and District Courts are in his name and prepared under his superintendence. He appears for the Crown in all Civil cases in which it is interested.
- v* 23 4 { Act as amanuenses in copying official correspondence and all other papers which pass through the Office of the Queen's Advocate.
- x* 20 0 { The Interpreter translates documents written in the Malabar and Sinhalese languages, and enables the Queen's Advocate to communicate personally with the Natives in those languages.
- y* ... Carry letters and messages.

REMARKS ON SQUATTING.

By the Government Agent for the Western Province.

Squatting, as a practice, can scarcely be said to exist in the Western Province. In rare cases traders have been found to occupy ground of very limited extent,—a few perches at the utmost on the road sides for their boutiques, under the temptation of being able to expose their goods for sale more advantageously in such situations; but these persons are easily induced to pay a moderate quit-rent for the ground they occupy, and since the facilities for survey have been provided, even to purchase them.

(Signed) C. P. LAYARD,
Government Agent.

Nil.

By the Government Agent for the Southern Province.

No new cases of squatting were reported during 1869.

(Signed) P. W. CONOLLY,
for Government Agent.

By the Government Agent for the Eastern Province.

Trincomalee.—Squatting, as a practice, is discouraged. No instances have been reported during the year, and the Headmen are instructed to exercise a strict surveillance.

Batticaloa.—No recent cases have been reported.

(Signed) A. B. MASON,
for Government Agent.

By the Government Agent for the Northern Province.

In the course of the many years during which the service of a Surveyor was refused to this Province, a number of small pieces of land adjoining to, and mingled with, the private land of the villages, has been cleared, cultivated, and planted, which land it is now perfectly impossible to identify as ever having been Crown land.

(Signed) W. C. TWYNAM,
Government Agent.

By the Government Agent for the Central Province.

Squatting on Crown lands was at one time very prevalent in this Province, owing to the large influx of Sinhalese from the Maritime Districts, and of Malabars from the Continent of India, consequent on the extension of Coffee planting, and the inducements held out to these men to settle in the vicinity of Estates in search of an honest livelihood, or, as is more frequently the case, for the purposes of dishonest gain. Every practicable method of putting a check on this practice has been resorted to during the last few years, and the most effectual mode has been found to be the survey and sale of small lots of land suitable for Natives. I am happy to be able to say, that by this means, and by the adoption of vigorous measures to eject squatters, the evil has been considerably diminished, and I do not despair of seeing it almost disappear by degrees.

(Signed) H. S. O. RUSSELL,
Government Agent.

NORTHERN PROVINCE.

Jaffna.—The Gaol is situated in the Fort. It is not a building erected purposely for a Gaol, but is composed of buildings which were originally Military Quarters. The materials are brick (in some parts coral) and mortar; covering of tiles; the boundary at the back is the main wall and ramparts of the fortress. The buildings are in process of alteration.

Mannár.—The Prison is situated in the Fort of Mannár. It consists of eight rooms, one of which is occupied by the Gaol guards, three by Civil prisoners, and four by Criminals. The Prison is a Common Gaol.

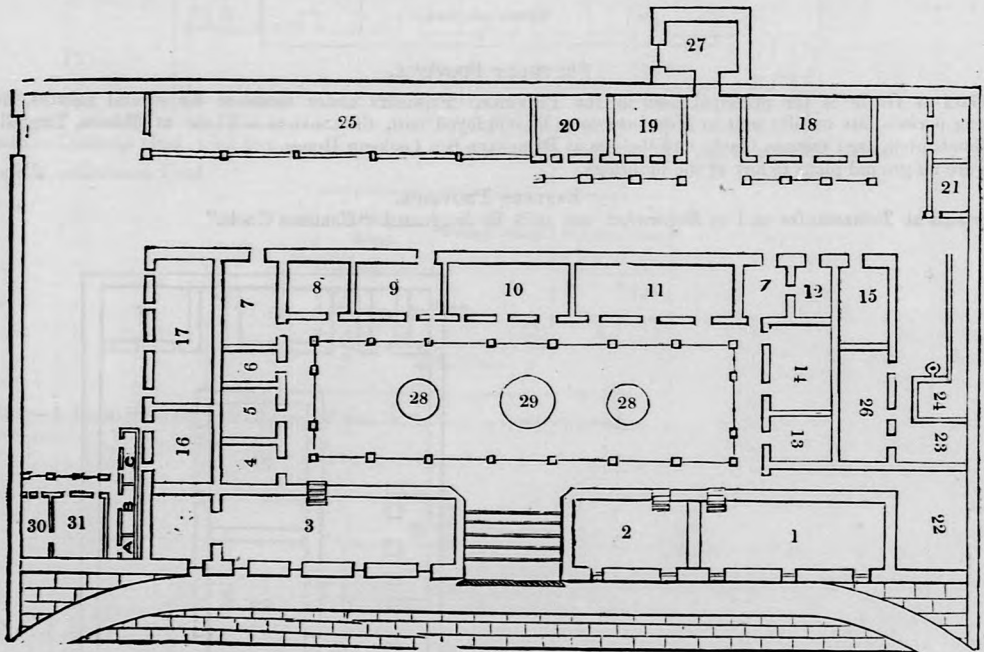

Mullaitivu.—Common Gaol.

Anurádhapura.—Common Gaol, consisting of three rooms.

CENTRAL PROVINCE.

Kandy.—The Gaol is an oblong building, containing in the inside fourteen wards, ten of which are used as cells, one as surgery, one as guard room, and one as turnkey's office. There are four wards in the main building, which open into the outer yard, viz.:—one used for males, two for females, and one for store and lumber room; and three wards in the outer yard, viz.:—one for Civil debtors, one as hospital, and one as gaoler's office. There are three privies in the inside of the building.

No. 3, $25\frac{1}{2} \times 11$. No. 4, 13×11 . No. 5, $11\frac{1}{2} \times 11$. The building was formerly a granary; the floor is raised on stone and brick pillars to a height of three feet from the ground. The wall consists of brick pillars at intervals of eight feet, the intermediate spaces being filled in with sticks and mud. The roof is thatched. The doors consist simply of bars of wood, 3×2 inches, at intervals of about 4 inches apart: this is necessary for ventilation, but greatly impairs the security of the building.

- Welikada, Colombo*.—Superintendent of Prison, chief turnkey and clerk of works, assistant clerk of works, turnkey, overseers, master artificers, Gaol guards. The Superintendent, the medical officer, the chief turnkey, and an overseer reside on the prison ground. Female prisoners are attended by female officers exclusively.

- Ratnapura*.—A turnkey appointed by Government, and two Gaol guards appointed by the Fiscal. They do not reside in the Gaol as there is no accommodation for them. Whenever female prisoners are confined in Jail, women are employed to guard them.

NORTH-WESTERN PROVINCE.

At *Kurunégala*, the Gaol is in charge of a gaoler, and nine Gaol guards; at *Puttalam*, in charge of a gaoler and two fixed Gaol guards; but extra ones are employed when the number of prisoners in custody requires greater vigilance; at *Chilaw*, in charge of a turnkey and five Gaol guards; and at *Kalpitiya*, in charge of two Gaol guards. The gaolers are appointed by the Governor, and the guards by the Fiscal. None of the officers reside in the Gaol; the duty is, however, performed in rotation by the Gaol guards. Matrons are employed over female prisoners when there are any in custody; but there are no permanent female attendants.

SOUTHERN PROVINCE.

There is a gaoler in charge of each Prison, and peons to assist him, with the exception of that at Balapitiya, which is in charge of a clerk and two peons. The gaolers are appointed by Governor, and the peons by Fiscal. The gaolers and few peons reside in the Galle, Mátara, Tangalla, and Hambantota Gaols, but none in the Balapitiya Gaol, except a peon. When there are female prisoners, matrons are hired.

EASTERN PROVINCE.

At Trincomalee.—Gaoler £50, by the Governor, six peons at £12 each, by Fiscal.

At Batticaloa.—Gaoler £36 by the Governor, two peons at £12 each, by Deputy Fiscal.—In neither place do the gaolers reside in the Gaol. When female prisoners are in custody, special female attendants are hired.

NORTHERN PROVINCE.

Jaffna.—A gaoler appointed by Government, and eight turnkeys nominated by Fiscal. The gaoler resides in a house adjacent to the Prison. A matron attends upon the female prisoners. She resides within the walls of the Gaol for females.

Mannár.—One turnkey and three Gaol guards, appointed by Fiscal. None of the officers reside in the Prison. No female officers have hitherto been appointed.

Mullaítivu.—Two of the Fiscal's Process Servers are detached to take charge of the Gaol. The Fiscal's Arachchi superintends, but does not reside in the Gaol. There are no females officers, there being no accommodation in the Gaol for female prisoners.

Anurádhapura.—There are a turnkey and three Gaol guards. They do not reside in the Prison, but watch the Gaol by turns.

CENTRAL PROVINCE.

Kandy.—One gaoler, one overseer, two turnkeys, and one matron, appointed by His Excellency the Governor (the gaoler and matron reside in the prison), and fourteen watchmen, to attend the convicts employed at hard labour, appointed by the Fiscal.

Badulla.—A turnkey and three Gaol peons appointed by the Fiscal, and a matron employed whenever there is a female prisoner.

Mátalé.—Three, namely, a turnkey appointed by the Governor, and two peons by the Deputy Fiscal. The turnkey only resides in the Prison. There is no female officer.

Nuwara Eliya.—A turnkey, appointed by the Governor, who does not reside in the Gaol, as there is no accommodation for him. As female prisoners are occasionally committed, a matron is employed when required.

ANSWERS TO QUESTION IV.

WESTERN PROVINCE.

Welikada, Colombo.—The Prisoners are divided into 2 classes; viz., those undergoing the 1st or separate stage of imprisonment, termed the penal class, and secondly the hard labour class. The cellular division in the south yard is appropriated to the former. The wards in the north yard to the latter, and a portion also as an hospital.

Hulfsdorp, Colombo.—Six large cells capable of containing fifteen prisoners in each, and thirty cells capable of containing three prisoners in each; two other larger rooms, intended for females, have been converted into a surgery and hospital. The debtors are confined in a separate building consisting of three large rooms. The prisoners are engaged on public works outside the walls during the day. The space for extending the building is very limited.

Pánaduré.—None.

Kalutara.—There are five wards in the Prison.

Negombo.—No day rooms nor work rooms. *The building can be advantageously extended.*

Aisávélla.—The only divisions are the male and female ward; in the latter, male prisoners are put occasionally when there are no women in confinement. The Gaol might easily be increased by including the room now used as the Fiscal's Office, and enclosing the verandah marked A in the plan.

Kégalla.—There are four wards or rooms used by prisoners. The wards cannot be extended, and the premises cannot be increased without very great difficulty.

Ratnapura.—The Gaol consists of eight rooms, which are thus appropriated:—1 for Criminals, 1 for hospital, 1 for debtors, 1 or 2, if required, for untried prisoners, 1 for female prisoners, and 1 for turnkey and peon. No special classification can be observed.

NORTH-WESTERN PROVINCE.

The Gaols do not admit of classification. The Gaol at Kurunégala consists of four rooms; Nos. 1, 2, and 3 are used for prisoners under further examination, awaiting trial, and for debts, &c.; No. 4 is used as a room for the sick.

The Gaol at *Chilaw* has two rooms, affording accommodation for about twenty men in each. Two cells capable of containing four men, and a small room intended for four female prisoners.

The *Puttalam* Gaol consists of three rooms; one large enough to contain twelve men, and two small rooms each to hold two. The *Kalpitiya* Gaol consists of two rooms; one is used for female prisoners, and the other for male prisoners. Since the commencement of the year the old Court-house has been added to the Gaol. But a still further enlargement is very necessary as the number of prisoners have been increased and are now increasing, and there are no female wards, latrines, or cell for condemned prisoners, which are much required.

SOUTHERN PROVINCE.

At Galle the main building may be considered as divided into five classes, the back of it into 3 divisions, each consisting of two general cells; one occupied by female prisoners, one used as a hospital, and the other for the Civil prisoners, and a detached room from the cells, for Native Criminal prisoners and prisoners for trial, &c., and a work shed in the middle.

The *Mátara* Gaol has three spacious wards used as sleeping apartments, with two detached rooms which serve as hospital.

The *Tangalla* Gaol has no classification except that of keeping those for further examination distinct and apart from prisoners committed to hard labour, and a room kept exclusively for female prisoners. There is a square piece of airing ground. The rooms having been now divided into several compartments, would admit of further classification.

The *Hambantota* Gaol has eight wards, one of which is used as Hospital; a guard room and one yard. These cannot be extended.

The *Balapitiya* Gaol has two rooms for prisoners, and one for guard.

EASTERN PROVINCE.

It is quite impossible in the Gaols to classify the prisoners. The site of the Trincomalee Gaol will not admit of any improvement.—That of Batticaloa can be used for a new Gaol. There are four rooms in the Trincomalee and seven in Batticaloa Gaol.

NORTHERN PROVINCE.

Jaffna.—Supreme Court prisoners; District and Police Court prisoners; prisoners for further examination; prisoners for trial; Burgher debtors and Native debtors are kept apart as far as practicable. A ward (82 x 21) for Road Ordinance defaulters is being constructed. Female prisoners are confined by themselves in a separate building.

Mannâr.—There are no classes or divisions. There are four airing yards at the back and front of the rooms. They cannot be extended or increased without encroaching on the ground forming the centre of the Fort.

Mullaitivu.—Two wards.

Anarâdhapura.—None.

CENTRAL PROVINCE.

Kandy.—The wards marked 1, 2, 3 are used for convicts, 4, 5 and 6 as condemned cells, 7 for prisoners awaiting trial, 8 and 9 turnkey's office and store room, 10 for Europeans and Burghers, 11 for further examination prisoners, 12 as surgery, 13 guard room, 14 for simple imprisonment prisoners, 15 convicts, 16 and 17 female prisoners, 18 hospital, 19 for civil debtors, 20 gaoler's office, 21 cook house, 22 and 23 male privies, 24 female privy, 25 work shed, 26 store and lumber room, 27 dead house.

Badulla.—Five wards; two of which are used for convicts, one for accused under examination, one for female and one for sick prisoners. There are no day or work rooms. The Gaol stands in an open space of ground unprotected by walls. There is ample space for large airing yards.

Mâtalé.—The Gaol is simply a lock-up house; Consists of three small rooms; and the space enclosed is so confined that the buildings are scarcely capable of extension. (See Answer No. I.) A female ward is much required, as also other additional wards, and a residence for the turnkey; but there is not space within the walls, and the yard must therefore be greatly enlarged.

Nuwara Eliya.—A lock-up house consisting simply of three rooms, which might easily be extended.

ANSWERS TO QUESTION XX.

WESTERN PROVINCE.

Welikada, Colombo.—Yes; cost of maintenance from criminal prisoners alone on their discharge from the Prison.

Hulfsdorp, Colombo.—No fees are demanded from Debtors. No fees are demanded from a convicted prisoner on being admitted into the Gaol. Any property or money found in their possession is taken from them, and a register kept of it, signed by the gaoler, and countersigned by the Fiscal; and on their discharge so much is detained as is sufficient to pay for their maintenance during their confinement, and the balance, if any, is returned to them, in conformity with the Ordinance No. 18 of 1844.

Pánaduré.—None.

Nuwara Eliya.—No fees are demanded from debtors; and as to Criminal prisoners, they are liable to the payment of the expenses of their maintenance in Gaol, which are recovered by Government in all cases where prisoners have property.

ANSWERS TO QUESTION XXII.

WESTERN PROVINCE.

Welikada, Colombo.—None.

Hulfsdorp, Colombo.—None.

Pánaduré.—None.

Kalutara.—None.

Negombo.—There being only two cells, it is desirable that the Gaol should be enlarged so as to have separate apartments for prisoners of each denomination, and the sick and females, and to admit of sufficient accommodation for the officers to reside in it.

Avisáwella.—The lock-up requires to be enlarged and thoroughly repaired, and separate cells in which suspected persons when remanded may be put, are required. There is at present no means of keeping them apart from each other, and thereby crimes often escape detection.

Kégalla.—None.

Ratnapura.—The Gaol has been repaired during the year and is now in fair order, but a screen is required to separate the privies used by the male and female prisoners. A small railing should also be put up in the verandahs, to separate Criminals from further examination prisoners. A Gate is required for the outer yard.

NORTH-WESTERN PROVINCE.—None.

SOUTHERN PROVINCE.

With the addition of 40 cells in course of construction the Gaol at this station will be a very good one, and admit of penal discipline being carried out in the case of both European and Native prisoners; but in respect of European prisoners under long sentence I do not advise their retention in this Gaol, as the gaoler and warders are not of a class, not being European, to enforce that strict adherence to discipline which is so necessary in a Gaol of any magnitude.

There has been no mortality in the Gaol save one case of accidental death from lightning.

One birth only has occurred, and in that case there is no doubt that the mother was enceinte when admitted.

The work performed by the prisoners is fairly remunerative, and much expense to Government in the repair of tools has been saved by the employment of a prisoner who is a carpenter by trade, and of another who is a blacksmith.

No draft of prisoners is sent to Hambantota until the Medical Officer has satisfied himself that each prisoner is fit for penal servitude at that station.

EASTERN PROVINCE.

It is most essential that a new Gaol should be commenced at Batticaloa at once, and at Trincomalee as soon as possible, so that the prisoners under long sentence can be kept and their labour profitably made use of on the Public works.

NORTHERN PROVINCE.—None.

CENTRAL PROVINCE.

Kandy.—A building known as the Granary had to be rented frequently during the year, as the number of prisoners was greater than the Gaol would hold.

Badulla.—Frequent representations have been made of the condition of the Gaol. It is damp, ill-ventilated, and insecure. The site is a good one, and if a suitable plan were sanctioned, a good wall ought to be at once built round the premises, leaving the construction of the buildings within to follow.

Mátalé.—The size of the Gaol is totally disproportionate to the local wants of the place.

Nuwara Eliya.—During the year five prisoners made their escape from the Gaol. Only two were apprehended since.

(I.) What quantity of Water is available for each Patient every day ?

What is the source of the Water Supply ?

What is the quality of the Water ?

(II.) Detail the arrangements as to Baths and Lavatories.

(III.) What is the system of Sewerage; and what the condition of the Privies.

ANSWERS TO QUESTION II.

Merchant Seamen's, Colombo.—For bathing and drinking the quantity is unlimited. For drinking purposes the water is obtained from a well in Captain's Garden, which is likewise the source of supply to the entire town. Free from saline or other admixture, as ascertained by rough tests frequently applied in the course of chemical analysis for Judicial purposes. There is a well in the Hospital premises, the water of which is derived by percolation from the sea. It is saline, brackish, and unfit for drinking. This well supplies the baths, which consist of a large square room with 3 wooden tubs, filled by a pump attached to the well. There are side-drains in the ground floor of the Hospital, which convey away the washings of the Ward, kitchen, and court-yard. No sewage matter is permitted to enter these drains. They are flushed by periodical showers of rain, and whenever deemed necessary, by the pump attached to the Hospital well. The Privy consists of a cess-pit with 12 seats, and is the only depository of sewage matter. Its contents are removed by hand once every year. McDougall's disinfecting powder is used to deodorize the excreta from Dysenteric Patients before removal from the Ward. A quantity of it is also daily thrown into the Privy.

Maradana.—Unlimited. Four wells. Soft and pure, the best in all Maradana. Two tubs in each Lavatory, with appliances for warm baths, 21 × 14 feet. Dry-earth Latrines, 21 × 14 feet, close stool-buckets placed in Latrines, besides those used by helpless Patients, chiefly in the Diarrhoea Ward.

Ratnapura.—Ad libitum. The river Kaluganga. Drinkable, and fit for cooking purposes. Such of the Patients as are able walk up to the river, which is quite close to the Hospital. The Privy is just a cess-pit boarded over, and requiring the use of quantities of disinfectants.

Kurunégala.—Six to ten gallons, or more. A well on the opposite side of the road to the Hospital ground, or some adjoining private wells. Good. Convalescents are sent to the public tank to bathe. There are no Baths or Lavatories attached to the Hospital. Privy pretty good; it is a cess-pool Privy, and is free from smell, disinfecting powder being daily used to purify it.

Puttalam.—For drinking purposes the quantity of water available is about two pints per head; for washing and culinary purposes, it is unlimited; but in very dry weather, when there is scarcity of water, the supply is limited. Water for drinking purposes is obtained from a well about half a mile distant from the Hospital; for bathing, it is obtained from a well in the compound, or a tank within an easy distance of the Hospital. Water used for drinking is cool, refreshing, and agreeable; it is apparently free from organic impurities, though it is not quite colourless, nor perfectly transparent; water for ablutionary purposes is brackish. There is no special arrangement for Baths or Lavatories. Patients who are able to walk and assist themselves, resort to a tank within a few yards of the Hospital, while others are supplied in Hospital with water in tubs. There is no special provision for sewerage; drains are opened, when required, for the escape of rain water collecting on the premises of the Hospital and the open plain around it. A Latrine serves the purpose of a Privy; it is an enclosure, 38 by 24 feet, with narrow trenches dug in it. The practice of covering faecal deposits with dry earth removes all smell most effectually.

Trincomalee.—As much as is required. Well. The water is brackish and of indifferent quality. There is only one Bath room with a masonry bath. It is most inconvenient, as only one Patient can bathe at a time, causing much delay. The Privy is of the soil-pit kind, sometimes offensive. The drains are good, and answer the purpose required of them.

Kandy.—Each Patient can use water "*ad libitum*." The water is supplied by a mountain stream. The quality is excellent. There are not any Baths or Lavatories; Patients bathe and wash at the stream in the open air. There is not any system of sewerage. The Privies consist of blind-pits covered with a flooring. The soil is removed from them when nearly full, *i.e.*, every four or five years. Disinfectants are used largely, and the floors scoured twice a week.

Matalé.—The quantity is unlimited. The supply of water for drinking and cooking is derived from a spring at a short distance from the Hospital. It is good and free from impurities. The Hospital is not provided with a Lavatory; Patients have to resort to the river for purposes of ablution. Sewage matters are carried to the jungle and buried. The Privies are in good condition, but seldom used by the Malabar's, who prefer the Jungle as a *place d'aisance*.

Gampola.—The Patients are supplied with as much water as may be required for daily use. A well attached to each Hospital supplies water for drinking purposes. A rivulet at the back of one of the Hospitals is resorted to by the Patients for bathing. The well water is potable, especially that obtained from Hospital No. 2. No analysis has been made of it. There are no Bath rooms attached to either Hospital. The Patients either bathe at the stream above-referred to, or have a warm bath extemporised for them whenever it is required. There are two cess-pits, which are daily disinfected with quick lime. Their condition is, however, far from satisfactory, as cleanliness is unknown to the class of Patients who are treated in the Gampola Hospital.

Badulla.—As there is no dearth of water the Patients are allowed as much of it as they require. The water is obtained from a fresh water stream, which flows past the Hospital within a few hundred feet of it. It is soft, sound, and wholesome. During the rains, filtering becomes necessary to render it fit for use. There is nothing like a Lavatory attached to the Hospital; most of the Patients resort to the stream above-mentioned for purposes of ablution; hot water baths are provided for special cases. There are no regular sewers; surface drains are cut round the Hospital, but these are found insufficient to carry away all the water during the rains. The Privy is a simple boarded cess-pit, walled in and tiled over. It requires largely the use of disinfectants to keep it free from an offensive smell.

- (I.) In reference to the above Table, state whether or not the Register Books were produced on every occasion; and, if not, on how many occasions they were not so produced?
- (II.) And if on any occasion when they were examined, they were found not to be properly made up to date of examination.
- (III.) State also how many Reports of the following kinds have come under the notice of the Governor :—
- Reports of a Financial and Statistical kind, especially such as shew the system on which Money and Store Accounts are kept and audited.

 - Reports by a Government Inspector, independent of the Governing authority of the Hospital.
- (Append copies of his Reports, if any.)

ANSWERS TO QUESTION III.

Merchant Seamen's, Colombo.—All Hospital Books are invariably produced for inspection. They were always found made up to date.

Maraddna.—Every Book produced for inspection. All found regularly entered up to date.

Ratnapura.—The Register books were produced. They were satisfactorily kept up to date.

Kurunégala.—They were not produced on the three visits by the Official Visitors, but were inspected by the Principal Civil Medical Officer, and were found to be in order.

Puttalam.—The Register Books were produced on every occasion. They were properly made up to date of examination. Periodical Reports and Returns are forwarded to the Principal Civil Medical Officer and Inspector-General of Hospitals. They are Weekly, Monthly, Half-yearly and Annual Returns. A Return of Diet is forwarded monthly to the Assistant Government Agent.

Trincomalee.—Never applied for or shewn to the Visitor. The Hospital Books are generally made up daily. None.

Kandy.—Once produced and examined. Found correct. Yearly Return of Sick, Half-yearly do. Equipment, Monthly do. Expenditure and Sick, Weekly do. Sick. These are forwarded to the Principal Civil Medical Officer's Office. Their final destination is not known.

Mátalé.—The Books were not examined either by the Principal Civil Medical Officer or the Official Visitor.*

Gampola.—The Register Books were produced only on the occasion of the visit paid by the Inspector-General of Hospitals. They were then found properly made up to date of examination. I can furnish no information under this head, I do not know whether any Hospital Reports are ever forwarded to the Governor.

Badulla.—The Register Books were produced when the Principal Civil Medical Officer and Inspector-General of Hospitals inspected the Hospital on the 11th of August, 1869. The books were examined by the Principal Civil Medical Officer; they were found properly made up to date of examination. Weekly, Monthly, Half-yearly and Yearly Returns regarding the sanitary condition of the Town and District, Medicine, Instrument, and Equipment Returns, &c., are forwarded to the Principal Civil Medical Officer. I am not aware of their final destination.

* This is an error of the Medical Officer, who has recently joined the station. The books were all carefully examined by the Principal Civil Medical Officer, and found to be properly kept. W. P. CHARLEY, M. D., P. C. M. O. & I. G. H.
